Session 2: August 2 – September 13; \$75/ \$95

7 Wednesdays, 6:30 PM - 8:30 PM

Session 2: August 4 – September 15; \$75/ \$95

This class is perfect for the student who has a basic knowledge of photography, who wants to learn how to be more creative. Students will learn – among other things – to see things in a whole new light, create unusual colors, and interesting special effects (Fx). Stage a still life like a painter; learn about “Camera Dancing” and “oil painting” with your camera. Lastly, we’ll examine the many processes available in finishing your work professionally, and we’ll explore the ins-and-outs of entering shows and exhibits.

Students will need to bring their own digital camera (point n’ shoot is OK) with its user manual. There’s a short list of inexpensive supplies you’ll need, but the Instructor will provide innovative “objects” to gain pleasing results.

I’m a former interior designer and visual-display specialist whose extensive travels throughout the US, Europe, Mexico & the Caribbean have influenced and added to my love of art and the way I view my

environment. I’m an artist of whom peers say, “She paints with her camera.” I create mainly abstract works by using special filters, lenses and camera techniques –‘breaking the rules’ so that others can see this extraordinary world from my perspective.

Artist’s statement - my subjects range from classic to contemporary; from abstract to Fx. I yearn to share my life’s passion & invite the viewer to take a moment to study a piece & understand its meaning. Art is joy.....
